PROFESSIONAL EXPERIENCE

Since 1972, Mr. Denman has been actively engaged in all phases of surveying and mapping in Florida. As principal in a surveying, engineering and land planning firm for more than 30 years, he has expertise in both the public and private sectors.

His public sector experience includes boundary, topographic, as-built, utility location, and specific purpose surveys and associated services for:

- numerous rural and urban street and highway projects
- water and waste water projects
- storm-water management facilities
- airport master planning, runway, taxiway, hanger and ADS-B projects
- airport approach surface encroachments
- underground infrastructure installation (electric/gas/telephone/signalization, etc.)
- landfill construction, monitoring, & capping
- landfill gas extraction
- construction of municipal buildings and other infrastructure

Fax: 352-373-7249

Email: ddenman@engdenman.com

His private sector experience includes boundary, topographic as-built, utility location, and specific purpose surveys and associated services for:

- residential and mixed-use developments
- retail and commercial office developments
- shopping centers
- hospitals and nursing homes
- residential aviation developments
- short and long term monitoring of residential and commercial structures with structural & settlement issues
- recycling, borrow, fill & construction debris facilities

Mr. Denman currently serves as project surveyor under contract to Alachua County, Gainesville Regional Utilities and the Gainesville-Alachua County Regional Airport Authority.

He also previously served as project surveyor under contract to the City of Gainesville and the School Board of Alachua County.

He is thoroughly familiar with all state and local regulations concerning the practice of professional surveying, with particular expertise in the Alachua County and City of Gainesville areas.

Mr. Denman has been qualified as an expert witness in land surveying and aviation matters and has given testimony in several court cases involving boundary line disputes, error in surveys performed by others, and aviation accident cases. He has also represented his clients at numerous public hearings and staff meetings.

Mr. Denman is an accomplished underground utility locator using electronic detection equipment and ground penetrating radar.
